64°04.14 N

21°58.36 W

NE Atlantic Ocean - Iceland

 Looking for an enjoyable and unique place to visit? Look no further. Take a break in Hafnarfjörður, the warm-hearted town in the lava, just south of Iceland's capital Reykjavík. Hafnarfjörður's name simply means 'harbour fjord' and refers to the excellent natural harbour, which has Iceland's longest history of continuous port trade - since the 1300s. Hafnarfjörður is Iceland's third-largest town, with just over 25,000 residents. And yet that number is open to debate, since legend has it that many of Iceland's elves and hidden people live in Hafnarfjörður's lava cliffs and rocks, in peaceful coexistence with the town's human residents. In fact, it is possible to tour the elf lands, and those with second sight may even be lucky enough to spot one or two! Naturally the town also offers plenty of more conventional outdoor activities, from golf and swimming to horse riding. Museums and galleries turn the spotlight on history, music and visual arts. And every summer hordes of Norsemen invade the town for the annual Viking Festival.

Approach & Aids to Navigation

Shoals:

Vessels with a draft of 7 metres and more approaching Hafnarfjörður are warned that shoals exist in pos. 64° 04' 48" N, 022° 08' W or 1.5 miles in 260° direction from the Valhusagrunn buoy.

Anchorage:

Vessels awaiting a pilot will find good anchorage 1.0 nautical mile SE of the outer buoy (Valhusagrunn) at Lat. 64° 04' N, Long. 022° 02' W. Water depth is between 25 and 30 metres.

Pilotage:

Pilotage is compulsory for all foreign vessels entering or leaving the port. Pilots usually board vessels 1.0 nautical mile SSE of the outer buoy. Smaller vessels and masters familiar with the port are invited to process to the inner buoy (Helgasker).

Radio Frequency:

Vessels approaching the harbor must notify ETA pilots on VHF channel 14 or Mobile Telephone +354 825 2303 at least two hours prior to arrival.

Wind Conditions:

Prevailing SE-SW winds. Current state of the weather is at the right on the screen.

Tides:

Tidal variation is up to 4.5 metres. Average spring tide 3.9 metres, neap 1.5 metres.

Port Services**Towage:**

One tug with 15 ton bollard pull and one with 4 ton bollard pull are operated at the port. Other tugs are ordered from nearby ports.

Cranes:

The port has access to mobile cranes with a maximum lifting capacity of 150 tonnes.

Bunkering:

Bunker services by ships and mobile tankers are available 24 hrs a day.

Waste disposal:

Waste disposal for all kinds of waste available on demand, by specialized service companies.

Responsability

Sea-Seek is a collection of sailing logbooks covering harbours, anchorages, diving spots... any subject regarding sport or pleasure at sea.

Sea-Seek is an online open-content collaborative pilot guide, that is, a voluntary association of individuals and groups working to develop a common resource of human knowledge. The structure of the project allows anyone with an Internet connection to alter its content. Please be advised that nothing found here has necessarily been reviewed by people with the expertise required to provide you with complete, accurate or reliable information.

In particular, don't use any map presented in Sea-Seek for the navigation.

Note that informations in sea-seek are compiled from a variety of freely available and non controlable sources and therefore Sea-Seek webmaster cannot be held responsible for incorrect or outdated data.

Responsabilité

Sea-Seek est un guide du nautisme ou pilote côtier en ligne. Fruit de la contribution de chacun, il décrit les sites de mouillage, les ports, les spots de plongée, les plages par et pour les amoureux de la mer.

Sea-Seek est un guide nautique libre, c'est-à-dire une association volontaire d'individus et de groupes qui développent ensemble une source de la connaissance humaine. Sa structure permet à tout individu avec un accès Internet et un navigateur Web de modifier le contenu disponible ici. En conséquence, sachez que rien de ce que vous pouvez trouver ici n'a été nécessairement vérifié par un professionnel compétent dans le domaine en question et ceci sur tous les sujets de Sea-Seek.

En particulier, n'utiliser aucune carte de Sea-Seek pour la navigation.
